

## Corporate Account Logging

Use this QRG to login-in using your corporate domain account. Note that this will work only if your organization has linked your corporate identity provider with Renvio, and your Renvio user account has been linked to your corporate account.

### Corporate Account Login

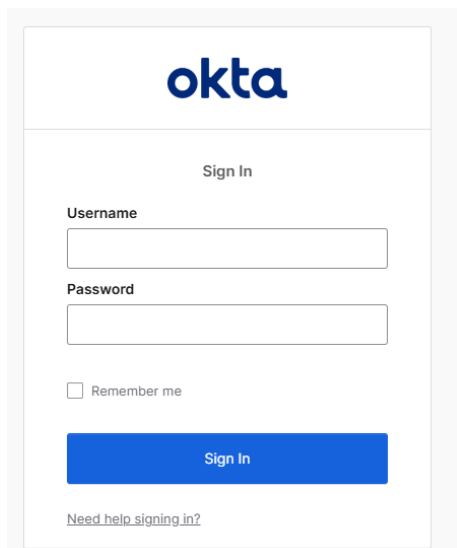

1. Go to Renvio's Login page and type your corporate email address in the Username field.
2. Your corporate Identity Provider login button will appear as shown in the screenshot below.

The screenshot shows the Renvio 'Sign in' page. It features a 'Username' field with the text 'Tuser1@gorenvio.com' and a 'Password' field. Below these is a dark blue 'Log In' button. Underneath the button are two links: 'I am a New User. I want to Set up my account' and 'I need help logging in (Forgot Password)'. A red box highlights the 'Or' section, which contains two buttons: 'Log In with Microsoft Entra ID' and 'Log In with Okta'. At the bottom of the page are links for 'Terms & Conditions', 'Contact Us', and a help icon.

\*If no buttons appear, your organization has not configured corporate identity providers with Renvio. Use your Renvio's username and password instead.

3. Click on your corporate identity provider button. This will redirect you to your corporate login screen. Enter your corporate credentials to login.

The screenshot shows the Okta 'Sign In' page. It features the Okta logo at the top, followed by the 'Sign In' heading. Below this are 'Username' and 'Password' fields. There is a 'Remember me' checkbox and a blue 'Sign In' button. At the bottom, there is a link that says 'Need help signing in?'.
